RECEIVED

I am writing in absolute protest of this application for a monthly customer charge increase. It is deceitful by stating an "approximately 21% increase." It actually is an increase of 186% for 8 months and a 57% increase for 4 months for each customer. Individual costs will increase from \$84 a year to \$204 a year just to have this account.

Two years ago I dialed my heat down to 64 degrees. Last winter I started turning my heat off three days a week and kept it at 64 the days it was on. This year I have dialed down to 62 degrees and have continued to turn the furnace off three days a week in order to do my part to conserve and to be able to afford to pay my bill. If this raise goes through, all MY efforts and suffering have been thwarted.

My disability payments will never see increases of 186% or even 57%. I could understand giving the gas company a 3.3% cost of living raise and the \$7 customer charge. Remember, once you allow this increase, there is no taking it back! Please think about this from the individual consumer's standpoint.

Thank You sincerely.

Case or Utility Name: UNS Gas, Inc AKA Unisource

Position on Docket: Con

When the gas prices went down nationwide; UNS Gas, Inc AKA Unisource did not pass that savings on to their consumers, but instead continued to charge the same high rates until the Corporation Commission intervened. Yet, many consumers still have not seen the decreased gas rates reflected in their gas bills. Then as a result of being told to pass gas savings on to their consumers they petitioned to raise the gas and electric rates. This reflects Unisource's greed and desire to increase their profits no matter what the cost to the consumer. Unisource is the only option for gas and electric in many rural communities in Arizona and the consumers in

RE: UNISOURCE ENERGY SERVICES ("UNS")

Dear Katheryn Meadows:

Your letter regarding the Unisource Energy Services ("UNS") rate case will be placed on file with the Docket Control Center of the Arizona Corporation Commission ("Commission") to be made part of the record. The Commission will consider your comments before a decision is rendered in the UNS application.

The concerns raised in letters received from customers will assist the Commission in the investigation and review of the rate application. The Commission's independent analysis of the utility and its rate request attempts to balance the interest of the utility and its customers.

Commission Staff is very sensitive to the burden that high utility rates can place on the consumer, and though constitutionally required to allow a fair return to the utility, does everything within its authority to protect the consumer.

Staff appreciates your comments and the interest taken on the proposed rate increase. If you should have any questions relating to this issue, please call me toll free at (800) 222-7000.

Sincerely,

Guadalupe Ortiz
